群峰机械-来自中国的打包机第一品牌

QUNFENG MACHINE-THE TOP BRAND IN THE CHINA BALER INDUSTRY

公司经营理念和客户的承诺：

不比价格比价值，

不比数量比质量，

不比技巧比技术，

做世界性价比**最高**的产品供应商。

公司简介

德州群峰机械制造有限公司是山东省大型民用液压机械舍不得研制开发、生产制造、经营销售、调试安装为一体的专业制造企业，公司位于山东省德州市德州银河经济开发区西首。德州群峰机械制造有限公司目前已成为两个厂区占地面积145200平方米，建筑面积98600平方米。

德州群峰机械制造有限公司是以产品为龙头，以资本为纽带，以企业文化为核心，涵盖400T棉花打包机、制造各种废纸打包机；废料打包机、废旧汽车压块机等多种液压设备；本公司以多元化的产品、先进的技术、科学的管理。连续六年被评为县级先进单位；地级优秀单位。部分高、新、尖产品在海外市场的销售大幅攀升，成为同行业产品销售一新的亮点。

Brief Introduction

Dezhou Qunfeng Machinery Manufacturing Co.Ltd,which is a large civil hydraulic machinery and sale,debugging and installaiton.Qunfeng headquarter located in the west of DeZhou YinHe economic development Zone,and the two factories cover area of 145200 square meters,building area of 98600 aquare meters.

Dezhou Qunfeng Machinery Manufacturing Co.,Ltd is to develop the products as leading,the capital as the link,and the company culture as the core.Company specializes in manufacturing 400T cotton baler,all kinds of waste paper baler;and waste material baler,waste automotive briquetting machine,and other hydraulic equipment.With diversified products.advanced technology,scientific management,our company was named advanced unit at the county level and regional excellent unit for six consecutive years.Part of highly sophiscated product's sales has a sharp rise in the overseas market,becoming a new highlight in the same product marketing.

1250A型半自动废纸打包机

FDY-1250A Semi-automatic baler machine

半自动废纸打包机介绍:

Semi-automatic baler machine introduction:

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit.

By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

本机特点: (The machine features):

- PLC控制, 按钮操作
- 卧式结构, 输送带加料
- 手动捆扎
- PLC control, Push-button control
- Hydraulic structure, with conveyor for loading
- Manual strapping
- 浮动式缩口设计, 有利于自动分配四面压力
- Design of floating contraction is beneficial to distribute of all sides pressure automatically.

技术参数 (Technical parameters):

产品名称 Product name	卧式半自动废纸打包机 Horizontal Semi-automatic baler machine	产品名称 Product name	卧式半自动废纸打包机 Horizontal Semi-automatic baler machine
型号 Modes	FDY-1250 A型	主油缸 Main cylinder	Φ250(缸径)/2700mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x1250(高)mm 1100(w)*1250(h)mm*length adjustable	电机功率 Motor power	37KW
打包密度 Bale density	约450KG/m ³ About 450kg/m ³	捆扎道数 Strapping lines	5道 5lines
产量 Capacity	7-10包左右/小时 About 7-10 bale/h	操作方式 Operation ways	按钮操作, 手动捆扎方式 Button operation manual strapping ways

1250B型全自动废纸打包机

FDY-1250B Full-automatic baler machine

全自动废纸打包机介绍:

Full-automatic baler machine introduction

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit.

By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

全自动废纸打包机性能特点:

Full-automatic baler machine characteristics:

PLC控制，人机界面（触摸屏）和视窗式监控，同步动作指示配合错误警告，可设定包块长度。
PLC control, human computer interface and window monitoring, sync action indication with error warning, can set the length of the bale.

浮动式缩口设计，有利于自动分配四面压力。

Floating gate design, is conducive to the automatic distribution of all the pressure

加料口带分散式剪切刀，剪切效能高。

Equipped with distributed type shear knife on charging opening, high shear efficiency.

自动捆扎，提高打包速度。

Strapping automatically, Speed up packaging.

技术参数 (Technical parameters):

产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine	产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine
型号 Modes	FDY-1250 B型	主油缸 Main cylinder	Φ250(缸径)/2700mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x1250(高)mm 1100(w)*1250(h)mm*length adjustable	电机功率 Motor power	37KW
打包密度 Bale density	约450KG/m ³ About 450kg/m ³	捆扎道数 Strapping lines	5道 5lines
产量 Capacity	8-12包左右/小时 About 8-12 bale/h	操作方式 Operation ways	PLC控制，自动捆扎方式 PLC control, Strapping automatically

1250C型半自动加长打包机

FDY-1250C Semi-automatic extended baler machine

半自动加长废纸打包机介绍:

FDY-1250C Semi-automatic extended baler machine introduction

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit.

By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

技术参数 (Technical parameters):

产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine	产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine
型号 Modes	FDY-1250 C型	主油缸 Main cylinder	Φ280(缸径)/2700mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x1250(高)mm 1100(w)*1250(h)mm*length adjustable	电机功率 Motor power	45KW
打包密度 Bale density	约500KG/m ³ About 500kg/m ³	捆扎道数 Strapping lines	5道 5lines
产量 Capacity	7-10包左右/小时 About 7-10 bale/h	操作方式 Operation ways	按钮操作，手动捆扎方式 Button operation manual strapping ways

1250D型单电机双油泵加长全自动打包机

FDY-1250D Semi-automatic extended baler machine with single motor and dual oil pump

全自动废纸打包机介绍:

Semi-automatic extended baler machine with single motor and dual oil pump Introduction

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit.

By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

技术参数 (Technical parameters):

产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine	产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine
型号 Modes	FDY-1250 D型	主油缸 Main cylinder	Φ280(缸径)/2700mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x1250(高)mm 1100(w)*1250(h)mm*length adjustable	电机功率 Motor power	45KW
打包密度 Bale density	约500KG/m ³ About 500kg/m ³	捆扎道数 Strapping lines	5道 5lines
产量 Capacity	7-10包左右/小时 About 7-10 bale/h	操作方式 Operation ways	PLC控制，自动捆扎方式 PLC control, Strapping automatically

1250E型开关门打包机

FDY-1250E Manual waste paper baler machine with door

开关门废纸打包机介绍:

Semi-automatic baler machine introduction:

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit.

By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

开关门废纸打包机性能特点:

Characteristics of baler machine with door

- 1、本机采用液压传动 2、设计合理、运动平稳、操作灵活
- Adopting hydraulic transmission Reasonable design, smooth movement and flexible operation

- 3、适用于棉花、废纸、废旧塑料等松散物质的压缩打捆，并且价格低廉。
- It is suitable for compressing loose material such as cotton, waste paper, waste plastics and so on, with moderate price.

技术参数 (Technical parameters):

产品名称 Product name	开关门废纸打包机 Manual waste paper baler machine with door	产品名称 Product name	开关门废纸打包机 Manual waste paper baler machine with door
型号 Modes	FDY-1250E型	主油缸 Main cylinder	Φ280(缸径)/4200mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x1250(高)mm 1100(w)*1250(h)mm*length adjustable	电机功率 Motor power	55KW
打包密度 Bale density	约500KG/m ³ About 500kg/m ³	捆扎道数 Strapping lines	7道 7lines
产量 Capacity	5-10包左右/小时 About 5-10 bale/h	操作方式 Operation ways	按钮操作, 手动捆扎方式 Button operation manual strapping ways

1250F型双电机双油泵加长全自动打包机

FDY-1250F Full automatic extended baler machine with dual motor and dual oil pump

全自动废纸打包机介绍: Semi-automatic baler machine introduction:

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit. By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

PLC控制，人机界面(触摸屏)和视窗式监控，同步动作指示配合错误警告，可设定包块长度。
PLC control, human computer interface and window monitoring, sync action indication with error warning, can set the length of the bale.

采用双电机双油泵设计，自动捆扎，提高打包速度。
Double motor and dual oil pump design, automatic strapping, increase the packing speed

浮动式缩口设计，有利于自动分配四面压力。
Floating gate design, is conducive to the automatic distribution of all the pressure

技术参数 (Technical parameters):

产品名称 Product name	卧式全自动废纸打包机 HorizontalFull-automatic baler machine	产品名称 Product name	卧式全自动废纸打包机 HorizontalFull-automatic baler machine
型号 Modes	FDY-1250 F型	主油缸 Main cylinder	Φ280(缸径)/2700mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x1250(高)mm 1100(w)*1250(h)mm*length adjustable	电机功率 Motor power	37KW * 2
打包密度 Bale density	约500KG/m ³ About 500kg/m ³	捆扎道数 Strapping lines	5道 5lines
产量 Capacity	12-16包左右/小时 About 12-16 bale/h	操作方式 Operation ways	PLC控制，自动捆扎方式 PLC control, Strapping automatically

850A型半自动废纸打包机

FDY-850A semi-automatic baler machine

半自动废纸打包机介绍:

FDY-850A semi-automatic baler machine introduction:

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit.

By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

本机特点 (The machine features):

PLC控制，按钮操作 卧式结构，输送带加料 手动捆扎
 PLC control, Push-button control Hydraulic structure, with conveyor for loading Manual strapping

浮动式缩口设计，有利于自动分配四面压力
 Design of floating contraction is beneficial to distribute of all sides pressure automatically.

技术参数 (Technical parameters):

产品名称 Product name	卧式半自动废纸打包机 Horizontal Semi-automatic baler machine	产品名称 Product name	卧式半自动废纸打包机 Horizontal Semi-automatic baler machine
型号 Modes	FDY-850 A型	主油缸 Main cylinder	Φ220(缸径)/2600mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x850(高)mm 1100(w)*850(h)mm*length adjustable	电机功率 Motor power	30KW
打包密度 Bale density	约500KG/m ³ About 500kg/m ³	捆扎道数 Strapping lines	3道 3lines
产量 Capacity	6-9包左右/小时 About 6-9bale/h	操作方式 Operation ways	按钮操作，手动捆扎方式 Button operation manual strapping ways

850B型全自动废纸打包机

FDY-850B Full-automatic baler machine

全自动废纸打包机介绍:

Full-automatic baler machine introduction:

废纸打包机用于在常态下将废纸及类似的产品挤压结实，并用专用包装带打包成形，使其体积大大减小，从而达到减少运输体积、节约运费，为企业增加效益的目的。引进了国内外同类产品的先进技术和先进工业。

Qunfeng Paper baler machine used for baling press waste paper and similar products with special strapping to form bale, with outstanding performance to reduce the volume, so as to save transportation cost, for the purpose of the enterprise to increase economic benefit.

By introducing advanced foreign technology of relative products, ensuring the highest production ratios, with the lowest energy consumption.

全自动废纸打包机特点 (Characteristics of Full-automatic baler):

PLC控制，人机界面(触摸屏)和视窗式监控，同步动作指示配合错误警告，可设定包块长度。

PLC control, human computer interface and window monitoring, sync action indication with error warning, can set the length of the bale.

自动捆扎，提高打包速度

Strapping automatically, Speed up packaging.

浮动式缩口设计，有利于自动分配四面压力。

Floating gate design, is conducive to the automatic distribution of all the pressure

加料口带分散式剪切刀，剪切效能高。

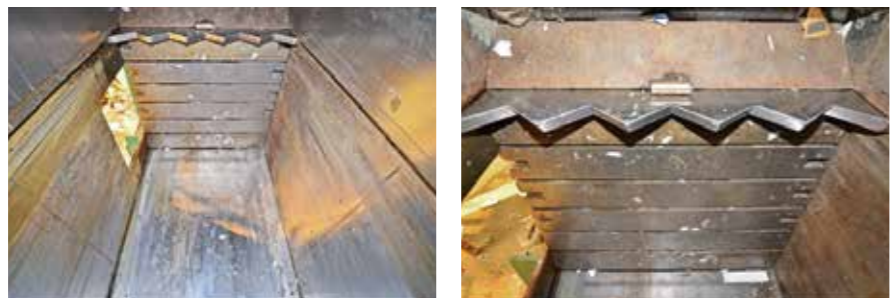

Equipped with distributed type shear knife on charging opening, high shear efficiency.

技术参数 (Technical parameters):

产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine	产品名称 Product name	卧式全自动废纸打包机 Horizontal Full-automatic baler machine
型号 Modes	FDY-850 B型	主油缸 Main cylinder	Φ220(缸径)/2600mm(行程)
包块尺寸 Bale size	长度可调x1100(宽)x850(高)mm 1100(w)*850(h)mm*length adjustable	电机功率 Motor power	30KW
打包密度 Bale density	约450KG/m ³ About 450kg/m ³	捆扎道数 Strapping lines	3道 3lines
产量 Capacity	7-10包左右/小时 About 7-10 bale/h	操作方式 Operation ways	PLC控制，自动捆扎方式 PLC control, Strapping automatically
